

## **BENEFITS OF DNA TESTING YOUR TENTERFIELD TERRIER**

- *Ensures your responsibility as a breeder in maintaining the best standards when it comes to the health of your animals*
- *Allows you to screen for relevant diseases – assess genetic status (CLEAR or CARRIER or AFFECTED)*
- *Screens for desirable traits such as coat colours*
- *A DNA profile (fingerprint) allows you to verify any stud service, multiple sires and confirm pedigrees*

### ***Tenterfield Terrier Full Breed Profile***

#### ***includes:***

*Canine DNA profile (genetic fingerprint)  
Congenital Hypothyroidism with Goiter  
Primary Lens Luxation  
Black Hair Follicular Dysplasia  
Natural Bob Tail (Short tail phenotype)  
A Locus, B Locus, E Locus, K Locus*

*The test for Congenital Hypothyroidism with Goiter is now validated and offered as an accurate and reliable test for the Tenterfield Terrier. As previous testing for COHG was not validated against known controls, we are offering all Tenterfield Terrier breeders a retest of any previous samples at no charge.*
